### *The Current Works of Chasety Starr Orner*

Stop by the Peter Herdic House on First Friday, and throughout the month of February, to view the autobiographical narratives of Chasety Starr Orner. This body of work encompass her beliefs on the nature of womanhood. What defines a woman is very prevalent in today's social-political landscape. There is, of course, no correct answer to what makes someone a woman. The art of femininity is how one refuses to answer the question. There may also be 1 or 2 famed female chefs' cooking onsite to accompany the theme of the show! The Peter Herdic House opens at 5pm.
